

Aldo Bernardi®

Soiree

Item: **SOIR1**

Soiree SOIR1 is a freestanding light structure with four flexible arms and LED lights. The structure consists of part rigid and part flexible aged brass tubing. The lamp shades are aged copper. The flexible arms allow for illumination in multiple directions and angles, to be bent only once at time of installation. LED light bulbs and low voltage transformers are included. SOIR1 can be mounted on a solid surface or anchored in the ground using INT.P, sold separately.

Width: 27.56"

Depth: 27.56"

Height: 51.18"
